

No project is ever too small for our East London cutting team. With all our creative and technical expertise, we can give advice however bespoke or customised your project may be. Each machine has its strengths and we will advise you as to which machine will work best for your project.

We stock a wide range of sheet material at our Shoreditch workshop. Our main-stay laser cut materials are acrylic, laser plywood, MDF, paper-backed veneer, paper and card including corrugated, fabric and leather. We process wood, plywood, MDF including fire resistant, Valchromat, engraving laminates, Foamex and Dibond on our CNC router. You are welcome to supply your own material. Why not check out our material list when planning your project. This information is available as a downloadable PDF [here](#).

If you have any questions, please email us at hello@swordfishworks.com or call 020 3763 3100.

Brand / Series	Machine	Type	Cut Area
CadCam Technology Custom	Laser cutting machine	100W	1985 x 1185mm
CadCam Technology FB1800	Laser cutting machine	100W	1840 x 970mm
CadCam Technology FB1500	Laser cutting machine	50W	1440 x 970mm
CadCam Technology FB700	Laser cutting machine	30W	970 x 720mm
Trotec Speedy 300	Laser cutting machine	30W	720 x 420mm
AXYZ International 4000	CNC router	3-axis	2440 x 1524mm
